# DULL TIMES IN WALL STREET

Procrastinating Senate Held to Blame for the Situation.

Stocks Closed Weak and at or Near Lowest Prices-Indianapolis Grain and Other Markets.

At New York, yesterday, money on call was easy at 3@4 per cent., the last loan at 3, closing offered at 3,

Prime mercantile paper, 71/2 @10 per cent, Sterling exchange was dull, with actnal business in bankers' bille at \$4.85@ 4.85% for demand, and \$4.82@4.82% for sixty days. Posted rates, \$4.85@4.86. Com-

mercial bills, \$4.81@4.91%. Silver certificates, 74@760. Bar silver closed at 734c per ounce; Mexican dollars at 59c. At London bar silver was 34'sd. The loan committee of the clearing house canceled to-day \$1,900,000 loan certificates, leaving the total outstanding \$34,535,000, Total sales of stocks were 148,200 shares.

Inactivity and depression marked the

dealings on the New York Stock Exchange Friday, and the total sales were some five thousand shares less than on Thursday, which was the lightest business day in weeks. The duliness is mainly ascribed to absence from the market of the large operators, who seem to have adopted a policy of caution, pending the conclusion of the silver bill discussion at Washington. Wall street appears to be imbued with the belief that the future course of speculation values is to be largely determined by the action of Congress in regard to silver, and the complexity of the situation at the Cap-Itol has made the plan of campaign in the stock market a failing one. Neither bull nor bear desires to put out any very heavy lines, and the general public is not in the street to any appreciable extent, London was reported to be in the market as a buyer of Union Pacific, Atchison and Wabash preferred, and as a seller of St. Pani, but the trading was not materially affected by the transactions for the foreign account. The cancellation of almost two million dollars of clearing-house loan certificates had little are no influence for the better. The declaration of the regular quarterly dividend of 1 per cent. on Rock Island and the announcement of a handsome surplus above the amount of the dividend also passed unpoticed. Among the bear rumors was one to the effect that certain United States Senators who had bitherto favored the absolute repeal of the Sherman act were changing their base and leaning toward a compromise measure. The report did not receive much attention, the temper of the speculative fraternity as to the silver question being to wait for accomplished facts rather than accept unauthenticated gossip. The course of the market was erratic and the tone slightly feverish, the main tendency being toward lower prices. Two of the stocks which made an advance on the day's business were Cleveland, Cincinnati, Chicago, & St. Louis, 1% and Lake Eris & Western 1. The market closed decidedly weak and at or near the lowest of

the day. The railroad bond market was fairly steady in the early dealings, but became weak as the day advanced and closed heavy. Evansville & Terre Haute firsts sold at 114 2, the last previous sale having been at 111. The indications now are that to-day's bank statement will be exceedingly favorable, the flow of currency to New York during the week having been quite large and the loans having been largely and voluntarily reduced. It is regarded as likely that there will be a decrease in depostts, and the gold will not, it is thought, show much of an increase. Government bonds were steady. State bonds were dull. Closing quotations were:

The total clearings in the United States during the week amounted to \$792,853,589, being a decrease of 28.6 per cent. Exclusive of New York they were \$352,110,944, a decrease of 26.5 per cent.

## LOCAL GRAIN AND PRODUCE.

Trade Slowing Down and Cooler Weather Needed as a Stimulant,

Trade yesterday was not as active as in the preceding days of the week and it is thought were the weather a little more fall-like trade would improve. In prices clanges are few. Coffees and sugars are both in strong position and several destriptions of hog products are unusually tirm and further advances need not be a surprise. The bide and leather markets are quiet with no changes. Several changes will be noted, all declines, in dry goods. On Commission row receipts of fruits and Vogetables are heavy and prices easier. So warm is the weather that fruits are rotting badly. Poultry is weak at quotations. There is a good deal of activity in the local grain market. Receipts are increasing and the demand is good at the follow-

ing range of prices on track: Wheat-No. 2 red, 61c; No. 3 red, 55c; rejected by sample, 40@50c: wagon, 60c. ### DUN & CO.'S WEEKLY REVIEW

Giving Some Idea of the Enormous Depression in Business.

The Situation, However, Is Now Steadily Improving and Manufactories are Rapidly Resuming.

NEW YORK, Sept. 15 .- R. G. Dun & Co.'s weekly review of trade says: Returns from every part of the country show decided improvement. Hopeful feeling prevails, money grows abundant at speculative centers, and somewhat easier for commercial purposes. Weekly failures have declined about half in number and more than balf in amount of liabilities. The number of establishments reported as resuming work - thirty-one wholly and twenty-six in part-still exceeds the number closing-thirty-three for the past week, with ten reducing forces-so that the hands employed have somewhat increased. The number of unemployed is still very large. Business is pulling itself together and even the crop report has caused little depression in stocks. The government report last Saturday was the most dismal for many years. It was not altogether credited that wheat had been damaged to the extent of an eighth after winter wheat had been barvested, and a supplementary statement estimates the yield at about \$70,000,000 bushels, but the decline even then sufficed to cause a rise of 24c. Western receipts for the past week being only 5,161,273 bushels, against 7,717,168 last year, and Atlantic exports only 1,701,054 pushels. against 1,855,748 last year. The injury to corn is officially estimated at \$15,000,000 bushels, and the price rose 4c, though Western receipts largely exceeded those of last year. Hogs naturally advanced 50c, and lard 250 per 190 pounds and pork 750 per barrel. The trouble at Rio affected the market for coffee, which advanced be, but oil declined 140. Industrial improvement is largely in cotton, and otherwise appeared scarcely more satisfactory than last week. About two-thirds of the Fall River mills are operating, but at a reduction of 10 to 13 per cent. in wages. Of the establishments resuming eleven were in the manufacture and five in knit goods. Of wool mille, ten stopped wholly and six in part, while three woolen and two carpet wools resumed. Heavy purchases of wool began at the end of last week, in part apparently speculatively, and at the three chief markets the total for the week was the highest since May, though only 4,856,300 pounds, against 8,812,000 for the same week last year. Several shoe factories have started up in part. Shipments from Boston for the week show a decrease of 46 per cent. In all eighteen reported metal works have started up in part and six wholly, while thirteen have stopped and fourteen have reduced hands

The output of pig iron Sept. 1 proves to have been 82,502 tons weekly, a decrease of 98,949 since May 1, indicating that only 45 per cent. of the productive force was employed. Sales of grey forge for \$7. at Bir-mingham, and of steel billets for \$19.50, at l'ittsburg, support the statement that the resumption of work in many cases is at the expense of great sacrifice in price. But, in this industry, business revives more vigorously at the West than at the East.

The liabilities of firms failing have greatly diminished. They were over \$102,874,314 in only two months, July and August, whereas the largest aggregate ever known for any previous three months during the past sixteen years was less than \$90,000,000. The average exceeded \$11,000,000 weekly in the two previous months. The failures reported this week have been, in the United States, 314, against 321 for the previous week, and against 154 for the corresponding week last year, and in Canada twentyseven, against twenty-eight last year.

The Senate Is Hu ting Business. NEW YORK, Sept. 15.-Bradstreet's weekly review of Wall street says: The public is unquestionably disappointed with the procrastination of the United States Senate in relation to the silver repeal, and shows an inclination to take rumors that a vote on the measure in that body would be subject to long delay, or even entirely averted, more serious than perhaps there is any reason. The influence of the same factor on the commercial situation and the money market also tend to react upon speculation. The return of normal conditions in the country's banking system has been rapid, but interest rates relax slowly, and bankers show no disposition to favor any further booming tendencies. At the same time, while the situation in general business is mending, it becomes clearer that the damage has been profound. and that to say nothing of the cause for anxiety, which will exist as long as the Sherman act is unrepealed, considerable time must clapse before recuperation will be complete. London has shown a complete indifference, not to say distrust and the trading has drifted into the hands of the board room professional element.

NEW EXPORT DEMAND DID IT

of Efforts of the Bears.

CHICAGO, Sept. 15 .- A sharp demand

Chicago Wheat Advanced in Spite

Corn and Oats Had a Heavy Undertone and Closed at a Loss. While Provisions Showed Strength.

for export caused wheat to show an advance, not withstanding hammering by the bears. Corn was kept down by steady realizing of long stuff with a good profit to it, aided by heavy estimated receipts for to-morrow. Provisions were dull but strong. Wheat at the opening was about the same as yesterday's closing, to 'so higher, ruled firm, and advanced 40 more, then became weaker, and prices receded to for December and 4@3se for May; ruled stronger, and prices advanced &c for May and so for December; held steady. and the closing was about 18 @40 bigher for December and 4c higher for May, than yesterday. The export clearances aggregated 788,000 bushels. Beerbohm reported estimated requirements of importing countries 402,000,000 bushels, and the surplus of exporting countries 200,000,000 bushels. The cancellation of New York clearinghouse certificates also helped the market. Corn opened with an easy undertone at 18@40 decline, but soon afterwards advanced be on buying by a few of the large concerns and the early sellers also purchased, the action of wheat aiding the upturn. A few buying orders were also in from the Southwest and this added some strength. On this bulge local operators were inclined to sell. The receipts for tomorrow coming liberal increased this tendency and values went off 4c, ruled steady. changed somewhat and closed with a 40 to to loss. The offerings of oats were small enough, but the buying orders could consume but a very small portion of them. Prices started firm, but receded gradually, closing at about inside figures, with a net

loss of 's @ 'ac. Provisions showed strength, chiefly on the action of the Chicago Packing Company, which was supposed to be bidding prices up in the interest of cash trade. Compared with last night pork is anchanged for September and October and 10c higher for January. Lard gained .10c for September, .15c for October and .05c for January. The advance in ribs was only .05c for September, but . 300 for October and unchanged for January.

Freights slow and unchanged at 1 2c for wheat and 1'se for corn to Buffalo. Estimated receipts for to-morrow are: Wheat,
